OHNMAR SOE

Project Manager · Technical Lead · ERP (Odoo) & Software Delivery

Yangon, Myanmar | +95 9 425 343 958 | ohnmarsoe.ss@gmail.com | linkedin.com/in/ohnmar-soe-79834357

PROFESSIONAL SUMMARY

Project Manager and Technical Lead with **10+ years in software delivery**, including **2+ years leading Odoo ERP implementations** and enterprise mobile projects. Manages the full SDLC, from requirements discovery to UAT sign-off and production go-live, for multiple client projects at once. Combines a hands-on engineering background with Agile/Scrum delivery, stakeholder management and change control. Track record: **100% on-time release**, **30% faster change-request turnaround**, and a **20% gain in team delivery efficiency**.

CORE COMPETENCIES

Project Delivery	Agile / Scrum · Full SDLC · Planning & Scheduling · Risk & Issue Management · Change Management · UAT & Go-live
Business & People	Stakeholder Management · Requirements Analysis · Business Process Mapping · Team Leadership (5–10) · Mentoring & Training
ERP & Technical	Odoo ERP (Inventory, Purchase, Accounting) · Ionic Mobile · API Integration · Docker · CI/CD · Code Review

PROFESSIONAL EXPERIENCE

Senior Consultant / Technical Lead / Project Manager

2024 – Present

Blue Stone Solutions Co., Ltd. · Yangon

- Manage ERP and mobile client projects in parallel, owning scope, schedule, risks and stakeholder communication from kickoff to go-live.
- Lead teams of **5–10 developers**, improving delivery efficiency by **20%**; designed training programmes for full-stack and Odoo developers.

> **Senior Consultant / Technical Lead — Odoo 19 ERP, Korean Manufacturer** 2026 – Present
>
> - Lead the development team delivering **9 custom Odoo modules** (CRM, sales goals, purchase, manufacturing, quality, CS service, customs) with Windchill PLM and Korea Customs UNI-PASS integrations.
> - Turn **600+ requirements** into functional designs, change records and test guides; track **250+ issues** to closure with the Korea-based client and run regression tests before releases.

> **Project Manager — Dai-ichi Insurance Mobile App** 2025 – 2026
>
> - Delivered a cross-platform customer mobile app (Ionic) for an insurance client with a **100% on-time release**.
> - Introduced a structured change-request process and stakeholder cadence, which **cut turnaround time by 30%**.
> - Oversaw the full SDLC: requirements, sprint delivery, API integration, UAT and production deployment.

> **Project Manager — GLPI Odoo ERP Implementation** 2024
>
> - Implemented an integrated Odoo ERP across **inventory, purchase and accounting**, mapping client business processes to the system.
> - Delivered a custom cost module that **improved reporting accuracy by 25%**.
> - Turned unclear, changing requirements into an agreed scope through workshops and achieved **UAT sign-off**.

Technical Manager

2018 – 2024

AcePlus Solutions · Yangon

- Led the software development team and delivered client projects; **improved system performance by 30%**.
- Established code review practices and mentored developers, raising code quality and team capability.
